

## Confirming presence of Office 2013 driver:

Please confirm presence of “Microsoft Access Driver (\*.mdb, \*.accdb)” ODBC Driver on your machine.

Perform following steps to check this,

- 1) Open Cellica Database Desktop application.
- 2) Profile Manager -> Add -> Click on “Config” Button -> to open “ODBC Data Sources Administrator” Dialog -> Go To “Drivers” Tab
- 3) Check presence of “Microsoft Access Driver (\*.mdb, \*.accdb)” ODBC Driver in that drivers list as shown in below figure.

Please send us the screen from your machine.
