

## Confirming presence of MS Access (mdb) driver:

Please confirm presence of “Microsoft Access Driver (\*.mdb)” 32 bit ODBC Driver for connecting to mdb database on your machine.

Perform following steps to check this,

- 1) Open "C:\Windows\SysWOW64\" Folder.
- 2) Double click "odbcad32.exe" to open “ODBC Data Sources Administrator” Dialog -> Go To “Drivers” Tab
- 3) Check presence of “Microsoft Access Driver (\*.mdb)” ODBC Driver in that drivers list as shown in below figure.
